No. 57, Vol. 4.

NEW WESTMINSTER, WEDNESDAY, AUGUST 31, 1864.

Price 6d. or 12 cts.

THIS JOURNAL is published every Wednesday and Saturday morning, and is delivered by Mail and Express to all parts of the Colonies, Washington Territory, Oregon, California, the Eastern States, and Great Britain.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, AUG. 31, 1864.
OUR OCEAN WEALTH.

It is at all times gratifying to observe indications of the immense surplus wealth of Great Britain finding employment in these Colonies, both because of local benefit to ourselves and certain profit to investors. The resources of these Colonies are varied and immense; but for lack of capital they are, to a very great extent, still dormant. Amongst our resources those of the ocean are not the least important. British Columbia possesses a seaboard of over 600 miles, pierced by innumerable inlets and sounds and adorned with many picturesque Islands; and on that extended shore line is to be found the most favorable grounds for taking every species of fish frequenting these waters, from the Royal Sturgeon, weighing as high as 800 lbs., and yielding its 50 lbs. of caviare, down to the little Otolob, which is so fat as to yield nearly gallons for gallon of precious oil, and is literally used for a taper by the natives. It is with peculiar satisfaction, therefore, that we learn from the London Times of the organization of the "Vancouver Island and British Columbia Fishery and Oil Company," under a Directory which is the best possible guarantee of its status. We append the names of the Directors, together with extract from the Prospectus, which will explain the objects of the company:

"The Hon. C. W. W. Fitzwilliam, M. P., Brookes' Club, (Director of the Vancouver Coal Mining and Land Company, Limited).
Sir Arthur William Buller, Knt., M. P., No. 20, Queen's-gate-terrace, South Kensington.
Benjamin Bullock, Esq., No. 34, Delamere terrace, Hyde-park.
Robert Burnaby, Esq., (Messrs. Henderson & Burnaby,) No. 17, Gracechurch street, London, E. C., and Wharf street, Victoria, Vancouver Island.
J. Chesshyne Blythe, Esq., (Messrs. Blythe, Brothers,) No. 146, Minories, London and Liverpool.

William J. Fennell, Esq., (Inspector of Fisheries for England and Scotland, late Commissioner for Ireland,) Whitehall, S. W.
Robert C. Janion, Esq., (Messrs. Janion, Green & Rhodes,) Victoria, Vancouver Island, Honolulu, Sandwich Islands; and the Albany, Old Hall street, Liverpool.
W. B. Lord, Esq., R. A., No. 37, Stockwell-park-road, Surrey.
J. Bertrand Payne, Esq., No. 44, Dover street, Aicadilly, W.

H. Cholmondeley Pennell, Esq., Conservative Club, and Woodlands, Weybridge, Surrey.
Matthew Pound, Esq., (Messrs. Bainbridge & Pound,) No. 60, Leather-lane, and 56, Dougherty street, London, W. C.
Captain J. F. Trivett, (late Hudson's Bay Company,) Lieutenant R. N. R., Royal Naval Reserve Club, No. 46, Lime street, E. C.
Bankers in London—The Alliance Bank, (Limited), 5, Lombury, E. C.
Bankers in Vancouver Island and British Columbia—Bank of British North America.
Broker—Aubrey Browne, Esq., 76, Old Broad street, E. C.

Auditors—Messrs. Johnstone, Cooper, Wintle & Co. (public accountants,) 5, Lombury, E. C.
Solicitor—H. M. Rowell, Esq., 13, Clement's Inn, W. C.
General Manager, Resident in the Colonies—J. K. Lord, Esq., F. Z. S.
Secretary (pro tem.) George P. Fennell, Esq.

Offices—31, Threadneedle street, E. C.
"This Company is formed for the purpose of establishing on the east and west coasts of Vancouver Island, and on the main land coasts of British Columbia, and elsewhere, deep sea coast, bay, river, and other fisheries, for herrings, salmon, cod, halibut, sturgeon, capelin or eulachin, anchovies, and other fish, for all of which there is a great demand in the markets of Vancouver Island, British Columbia, Oregon, California, Mexico, Chili, Peru, Sandwich Islands, and the colonies of Australia and New Zealand, as well as for home consumption; of curing the fish and converting the refuse into manure.

The Directors have secured the services of Mr. J. K. Lord as general manager, resident in the Colonies. Mr. Lord has had twelve years' experience in the wilds and coasts of North West America, and, in his capacity of Naturalist, has had opportunities that no one else could have had to investigate the habits and migrations of the various species of fish visiting those coasts, and he is thoroughly acquainted with the spots adapted to the establishment of Fishing Stations. Mr. Lord possesses a wide experience and thorough practical knowledge of fishing, of the native Indians, their language, habits, and various modes of taking fish; where the different varieties are to be caught; how they are to be caught, and what is to be done with them when caught. In order to carry out the operations of the Company the Directors will obtain land at such

places as may be desirable for fishery stations, for the acquisition of which they possess special facilities; and they propose to select such land with the view to the establishment of permanent settlements. Apart from the worth of the land as fishery stations, that purchased by the Company will (as the value of property is rapidly increasing in the colonies) become in a short time a highly remunerative investment.

The Directors have engaged experienced persons to carry out the objects of the Company, and such requisites will be provided as may be necessary for obtaining, curing and packing the fish, expressing oils, and manufacturing manure. The materials for the boats, houses and curing sheds can be obtained at an insignificant cost. There is, in the various markets before mentioned, demand for more fish than the Company could supply, supposing that every station realized the most sanguine expectations.

Fish oils of great commercial value can at all times be obtained in large quantities, at a comparatively small cost and be readily disposed to realize a considerable profit. Sturgeon are abundant, and attain a weight of from 500lbs. to 1000lbs., and from this fish it is proposed to manufacture isinglass and caviare, both of which obtain a ready market, and realize high prices.

NEW WESTMINSTER, WEDNESDAY, AUG. 31, 1864.

FATE OF THE "FIRST TELEGRAPH ACT, 1864."
It would appear from dispatches laid before the Legislature of the neighboring Colony of Vancouver that this ordinance cannot receive the sanction of Her Majesty's Government unless clause five be expunged. The obnoxious clause secures to the California State Telegraph Company, for a period of 20 years after the completion of the proposed line, the exclusive right of sending and receiving telegraph messages between any one place within this Colony and any other place within the Territory of the United States of America to the west of the Rocky Mountains. The clause also contains the following proviso:—

"This Act shall not be construed to prevent, or in any manner interfere with, the projected or any other line of telegraph across the Continent through British North America or elsewhere, nor to limit the right of any person, corporation or company freely to establish and work any other telegraph lines anywhere within or from the said Colony."

The ground of objection to the clause, of which the above is the substance, is that Her Majesty's Government may have to communicate through this Colony with the British Naval Forces on the Pacific, in very critical times and on very important matters. Now, we confess our utter inability to see how the enjoyment of the terms of the fifth clause by the California State Telegraph Company would, in any way, shape or manner, either directly or indirectly, stand in the way of such, or any other, communication through British territory, either by Her Majesty's Government or any other government, association or company whatsoever. With equal show of reason might Mr. Cardwell place an injunction upon communication by water with San Francisco and other places within the territory of the United States of America. British Columbia is, geographically, so remote from the central power of the great empire to which it belongs that, with the show and cautious policy which characterizes John Bull's general movements, we might be left to the quiet and undisturbed enjoyment of our present isolation for many years to come were we entirely dependent upon that power for such essential adjuncts to prosperity as telegraph and steam communication. A British company has, it is true, made certain proposals for the construction of a line of telegraph from the western boundary of Canada to New Westminster. But that proposal was clogged by so many conditions and guarantees as to make the colonies more directly interested, hesitate, and some of them absolutely decline acquiescence in the scheme, so that, as far as one can judge from present appearances, the fruition of that scheme may be very remote indeed. On the other hand, our American neighbors come to us with a proposal of the most liberal character. They engage to give us telegraphic communication with the Atlantic seaboard within thirteen months from the date of the Act becoming law, with the most ample protection against exorbitant rates, and with all the necessary security against suspension or inefficiency, &c., and all this without asking the Colony to guarantee a single dollar or grant a single acre of land beyond the mere right of way. It is true, they ask protection against competition for a period of 20 years. But what of that? So long as we are ensured constant communication at the lowest current rates, what have we to fear from the exclusive right? The company build the line with the most distinct knowledge that it will be worked at no inconsiderable loss for several, in all human probability many, years to come; and were they to undertake, without any such protection, to establish and maintain the line during these years of certain pecuniary loss, leaving it open for a rival line to be built when the country had reached that stage of progress which would enable the enterprise to pay an immediate dividend, they would indeed prove themselves either very deficient in common sense or else possessed of a more philanthropic spirit than we have any right to look for in a telegraph or any other company, whether composed of Englishmen or Yankees. But, with all this contrast, if the one scheme were pitted against the other, or if the telegraph line from here to California could in any way interfere with the proposed line across the conti-

nent through British territory, we could understand the objection raised by the Secretary of State for the Colonies. Such, however, is not the case. The one cannot possibly interfere with the other. The fact that an American line extends to this place, entering the Colony at its southern boundary and only traversing some fifteen miles of British territory, altogether, could by no possibility stand in the way of a telegraph line across the continent through British territory. How then, we ask, could this scheme interfere with communication between the Imperial Government and the naval forces on the Pacific? The thing is simply absurd. It should be remembered, in considering this subject, that the line from here to California is in no sense intended to take the place of the great and important intercolonial telegraph; and we are glad to find the British Government acknowledging, in so marked a manner, the importance of that scheme, in an Imperial point of view. We have frequently pointed out the invaluable facilities such a line would afford the British Government, especially in time of war, in communicating not only with the most distant of their North American possessions, but with their naval forces in these waters as well as with their forces and possessions on the other side of the water, and it is to be hoped the importance of the line in this respect will be as fully acknowledged when application for assistance in promoting the scheme is next made as now, when opposition is, we think, most unreasonably, shown to the construction of a line placing us in communication with California. We are not in a position at the present moment to state what effect this new and unlooked-for difficulty is likely to have upon the enterprise. We believe the work is in a forward state, a large proportion of the line being constructed; but we are not so sure that the company will still carry out the enterprise in the face of so unexpected a refusal on the part of the British Government to sanction the Act passed by the Colonial Legislature. We fear the Hudson Bay Company have, as usual, been using their influence with the Secretary of State for the Colonies, in pursuance of that dog-in-the-manger policy which characterized the old, and which, we begin to fear, has been transferred to the new company. If that company be really sincere in the desire to construct the intercolonial telegraph they could not have adopted a course better calculated to alienate these two Colonies from the scheme than to throw obstacles in the way of improving our communication in any legitimate way.

PROCLAMATION.
BUTE INLET MASSACRE!
A REWARD OF \$250
WILL BE PAID BY GOVERNMENT, UPON AND for the apprehension and conviction of every Indian or other person concerned as principal or accessory before the fact, to the murder of any of the fourteen Europeans, who were cut off by Indians, on or about the twenty-ninth and thirtieth days of April, now last past, in the Valley of the Homathco River, at Bute Inlet.

Dated Government House, New Westminster, 17th May, 1864.
By His Excellency's Command, ARTHUR N. BIRCH, Colonial Secretary.

GOD SAVE THE QUEEN!
IMPORTANT!

THE SUBSCRIBER, being anxious to get back once more into civilization, offers for sale his Farm, situated on the south side of the Fraser, opposite New Westminster. It contains ONE HUNDRED acres, has an Orchard of 300 choice Fruit Trees, five years old, which, if the world stand and the seasons continue, will bear a large crop of Fruit next year. To any one who has confidence in the future of New Westminster it offers great inducements to purchase, as it will be sold at a low figure. For particulars apply to

JAMES KENNEDY.

Important to Business Men in Victoria, California, Portland, and Places on the Sound!

The *British Columbian* is the only newspaper published in British Columbia, and is read by every business man from New Westminster to the Rocky Mountains, and is circulated as an advertising medium for the Colony. J. D. DOW, in Victoria, and T. B. BORN, in San Francisco, are our authorized Agents.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, AUG. 31, 1864.

The Mouth of the Fraser.

We publish in another column the copy of a letter from Lord Gifford, in command of H. M. war frigate *Tribune*, to Vice-Admiral Kingcome respecting the navigation of the Fraser River. This letter is very important, inasmuch as it was written immediately after the difficulty experienced in taking the Tribune out of the river, and fully corroborates the favorable opinion previously expressed respecting the character of the navigation by the Vice-Admiral as well as by other high authority. It will be observed that the circumstance of the *Tribune* taking the ground repeatedly on her outward course is in no way attributable to any defects in the navigation, but chiefly to the absence of proper channel marks, a point, it will be remembered, to which the Admiral promptly called the attention of His Excellency the Governor on the arrival of the ship in this port. The readers of the *BRITISH COLUMBIAN* are aware how frequently we pointed out, during the late administration, the unsuitable and insufficient character of the system of buoying the channel in use, and the necessity of having not only a proper class of buoys, but also a light-ship. It is gratifying to know that one of Governor Seymour's very first official acts was to admit the paramount importance of all this, and that an adequate supply of iron buoys, moored by means of mushrooms-anchors, are being procured, while the construction of a light-ship will be at once proceeded with. While the Victoria papers were zealously endeavoring to turn the grounding of the *Tribune* to account, in furtherance of their own selfish and malicious ends in injuring the reputation of our port abroad, we predicted that that untoward circumstance would ultimately have the very opposite effect. And even now we begin to see the truth of that prediction verified. The fact has been established in the mouth of two or three witnesses—all of them pre-eminently qualified to judge, and entirely removed above the warping influence of local prejudice—that vessels drawing 18 to 20 feet of water can with ease and safety reach our port, with adequate buoys. And, in confirmation of this opinion, we have the demonstrative fact that a war frigate drawing 30 feet came in without experiencing the slightest difficulty, and would have gone out with the same ease had it not been for the absence of proper channel marks. What more do we want? We question if there is a merchantman afloat drawing 30 feet, unless it may be one or two relics of the past, and they are by no means likely to visit these waters. It appears, then, to be placed beyond a quibble that our port is easy of access to the largest class of merchant shipping with the proper marks to indicate the channel.

THE OFFICIAL VISIT TO KOOTANAI.—As we announced on Saturday, the Hon. A. N. Birch, Colonial Secretary, leaves to-day for the Kootana mines. Mr. Birch will, we believe, be accompanied by Mr. Bushby, Registrar-General, and Mr. Evans, and he will take the route via Hope and Sooyos, and expects the trip to occupy about six weeks. We look with much interest to the result of this excursion, not only because of the importance we attach to the mines, but because it will afford the Colonial Secretary an opportunity of seeing a section of the Colony to which we look forward as the home of a large and prosperous rural population. We wish Mr. Birch and his party a pleasant trip and a safe return.

THE LOAN ORDINANCE.—We see by Saturday's *Gazette* that this ordinance has been confirmed by the Queen; so that we presume the contemplated public works which have been in abeyance will be proceeded with immediately, among the first of which we hope to see the light-ship and the Douglas-street road.

THE STR. "RELANCE" returned from Yale yesterday bringing a number of passengers and an express for Dietz & Nelson.

THE WEATHER continues very dry and warm, and late crops are suffering considerably for lack of moisture. Cereals have come to maturity, however, in excellent order, and the farmers could not have more favorable weather for harvesting their crops.

POSTMASTER FOR QUEENSLAND CITY.—Mr. John V. Woolsey, late clerk to Commissioner Cox, has we understand, been appointed Postmaster for the Mouth of Quesnelle, and will leave to-day for that place. We have no doubt Mr. Woolsey will make a correct, attentive and obliging Postmaster.

EXPORTS.—The ship *General Harney*, Capt. Oberg, left for Sooke yesterday with a cargo of 80,000 feet of lumber from Webster & Co.'s mill.

OFF FOR ENGLAND.—The Hon. J. W. Trutch, Chief Commissioner of Lands & Works &c., leaves to-day for Victoria whence he will proceed to England.

Later from Cariboo.

NEW AND RICH DIGGINGS STRUCK.

We learn that Whitehill, Draper & Co. had struck rich diggings on Cunningham Creek, and were taking out as high as 100 ounces a day to four men! Another company was at work taking out 40 to 50 ounces a day. The diggings are from 8 to 15 feet deep and are believed to be very extensive. Four hundred men had gone over, and up to the time our informant left three hundred claims had been recorded on this creek. From Williams and other creeks we have no news of importance. The bed-rock drain on Williams Creek is completed, enabling a considerable number of claims to be worked to advantage which have hitherto been lying idle, so that we may expect more cheering news from there from this out.

VICTORIA ITEMS.—From Victoria files brought up last night we glean the following:—A cricket match came off on Nanaimo on Saturday between the Nanaimo eleven and the Victoria eleven, the steamer *Alexandra* having been chartered to convey the Victorians thither. The playing is described as excellent on both sides, resulting in victory on the side of the Victorians by only two runs.—Mr. A. D. Bell has resigned the editorial chair of the *Chronicle*.—The candidate for the seat vacated by Mr. Jackson is Mr. Elliott, while Mr. Cary, Mr. Trowne and Mr. Fisher are spoken of for Esquimalt town.—Governor Kennedy, while believing that notice was perfectly legal, how most gracefully to both Houses, and has issued a proclamation calling them together on 12th prox.—The str. *Caledonia* is making daily trips to Sooke. The news from these mines, although of a less exciting character, is said to be good.

ARRIVAL OF TREASURER.—The *Reliance*, Capt. Irving, brought down 56 passengers yesterday, and an express for Dietz & Nelson, containing \$4000 in treasure. E. T. Dodge, Esq., of Douglas, arrived by the same steamer, with \$10,000 in treasure.

LILLOOET EXPLORATION.—We learn that an exploring party, consisting of Judge Elliott, Dr. Featherston and several others, left Lillooet eight days ago intending to strike the head waters of Pitt River. The arrival of the party may be daily looked for.

THE NEW TREASURER took charge of the Department to which he has been appointed on Monday at 4 o'clock P. M., thereby relieving the Hon. Collector of Customs from farther responsibility in that direction.

WELL DONE, HAREWOOD.—Mr. Densmair, the Manager of the Harewood Coal Mining Company at Nanaimo, reports another seam of coal 11 feet in thickness!

THE STR. "LILLOOET," Capt. Fleming, arrived from Victoria yesterday a little ahead of the *Enterprise*. She brought a large freight and a considerable number of passengers.

A RUNAWAY IN YALE.—On Monday morning Mr. Barnard's stage horses took fright and ran down Front street, going over the bank near the residence of Hon. E. H. Sanders. Little damage was done. Fortunately there was no one in the stage.

CUSTOMS RECEIPTS for week ending Saturday, Aug. 27th, 1864:—Duties, £1102 19 9; harbor dues, £17 14 11; head money, £13; tonnage dues, £75 18. Total, £1209 12s. 8d. Number of passengers entering this port during same period, 65.

Municipal Council.

Town Hall, August 29th, 1864.

Members present: Councillors Armstrong, Manson, Murray, Cunningham, Miller, Robson, Smith, Grieve, Wyllie and Ashwell.

In the absence of the President Coun. Armstrong was voted to the Chair.

Minutes of previous meeting were read and confirmed.

A communication from Rev. L. Fouquet, suggesting that Indian property should be exempted from Municipal tax, until such time as they receive similar protection with the whites was read.

A communication was read from C. Good, Esq., requesting the Council to clear certain streets in the vicinity of his residence.

Moved by Coun. Murray, seconded by Coun. Robson, and *Resolved*, That the Clerk be instructed to communicate with the Rev. Mr. Fouquet, and inform him that this Council cannot remit the amount of Smith's taxes, but if they find that the Roman Catholic Church has been charged more taxes in proportion to property held than other denominations in town, such excess will be remitted.

Moved by Coun. Manson, seconded by Coun. Cunningham, and *Resolved*, That Messrs. Robson, Grieve and Murray, be appointed a committee to inquire into the Rev. Mr. Fouquet's complaint, and report to the next meeting of this Council.

Moved by Coun. Murray, seconded by Coun. Wyllie, and *Resolved*, That the Clerk be instructed to communicate with Mr. C. Good, and inform him that as there are no funds in the hands of the Municipal Council at present they cannot yet take his application into consideration.

Moved by Coun. Cunningham, seconded by Coun. Robson, and *Resolved*, That the question of appointing a Clerk be now taken up.

Moved by Coun. Robson, seconded by Coun. Miller, That Mr. Thomas McKicking be appointed Clerk, Assessor and Collector, for the current Municipal year, at a salary of \$1,000.

Moved in amendment by Coun. Murray, seconded by Coun. Cunningham, That Mr. B. T. Tilley be appointed Clerk, Assessor and Collector, to be the Council for the present year. Both the

amendment and the original resolution were lost. Moved by Coun. Manson, seconded by Coun. Cunningham, That it is not expedient nor conducive to sound Municipal government to appoint one man to fill the three offices of Clerk, Assessor and Collector, and that this Council do not elect one person to fill more offices than Clerk and Assessor, and that the Collectors be made a separate office.—Lost; after which the Council adjourned.

Letter from Lord Gifford.

We take the following from the *Government Gazette* of Saturday:—

COLONIAL SECRETARY'S OFFICE,

25th August, 1864.

His Excellency has directed the publication of the following letter, from Lord Gifford to Vice-Admiral Kingcome, respecting the navigation of Fraser River. The letters referred to by his Lordship have been already published.

ARTHUR N. BIRCH.

H. M. SHIP "TRIBUNE,"

Esquimalt, 13th July, 1864.

SIR:—With reference to your communications of the 7th and 9th June, to His Excellency the Governor of British Columbia, relative to the navigation of the entrance to the Fraser River, I deem it my duty to state that, notwithstanding H. M. Ship under my command having taken the ground on her outward passage, I am of opinion that the vessel drawing from 18 to 20 feet could enter the Fraser in perfect safety, provided the Channel be properly buoyed with marks that can be seen at a reasonable distance.

The "Tribune" took the ground because the inner buoy (which is a pole painted a dull whitish color, only showing 4 feet above water) could not be seen until after a careful search with a spy-glass for ten minutes, although only 600 yards distant, when the ship struck; the next buoy (No. 4, black and red), a mile further down the channel, being plainly in view at the time. The color of the water and the inner buoy were almost the same.

The Chart No. 1922 was useless, and having no local knowledge I could not judge by my distance from Garry Point that I was running into danger.—I have, &c.,

GILFORD, Captain.

ROBERT KER, Acting Auditor-General.

Lady Inglis, widow of the late General Sir John Inglis, the gallant defender of Lucknow, who lost his life from fever caught at Corfu, is to receive a pension of £500 from the Civil List.

A MISTAKE.—Persons from the country coming to deal at the London House, having been misled as to the proper address, Messrs. Turner and Co. request them particularly to notice that their place of business is at the "London House," No. 6, Fort street, next door to Jay's nursery store, Victoria.

SPEAKING OUT IN CHURCH.—A most amusing instance of speaking out in church occurred some years ago in the parish of —. The minister, in preaching upon the story of Jonah, uttered a piece of declamatory rhetoric to something like the following effect:—"And what sort of a fish was it, my brethren, that God had appointed thus to execute his holy will? Was it a shark; for God could never have ventured the person of his beloved prophet amongst the deadly teeth of that ravenous fish. What fish was it then, my brethren? Was it a salmon, think ye? Ah, no; that were too narrow a lodging. There's no salmon 't the deepest pule o' a Tweed could swallow a man. Besides ye ken, its mair natural for men to swallow salmon, than for salmon to swallow men. What, then, was it? Was it a sea-horse, or a sea-horse, or a sea-dog, or the great rhinoceros? Oh, no! These are not scripter beasts aye, Ye're as far aft as ever. Which of the monsters of the great deep was it, can ye tell me? Here an old spectacled dame, who had an eclemsyriary seat on the pulpit, thinking that the minister was in a real perplexity about the name of the fish, interrupted him with, "Hoot, sir, it was a whale, ye ken." "Out upon ye, ye graceless wife that ye are!" cried the orator, so enraged as almost to fly out of the pulpit at her, "thine to take the word out of the mouth of God's minister!"

THE MEXICAN BASILISK is described by M. Samichraet in his paper on Mexican Reptiles, in the "Annals of Natural History." He states that it does not in any way resemble in its habits the fabulous creature to which the ancients gave the name basilisk. It is common on the margins of nearly all the rivers of the warm and temperate regions of Mexico. As soon as the sun has warmed the air in spring he quits his nocturnal retreat and commences the pursuit of his prey. If the dry trunk of a tree rises from the margin of the water, we may be almost certain of finding it, during the hot hours of the day, a basilisk acting the part of a sentinel. With his long neck extended, as if to absorb as much as possible of the solar heat, he remains in a state of perfect quietness; but if some noise attracts his attention, he raises his head, inflates his throat, and rapidly agitates the membranous crest with which his occiput is crowned. His piercing eye, with its dull yellow iris spangled with gold, glances inquisitively on every side if the danger be imminent, his body, previously flaccid and soft, draws together like a spring, and, leaping with the rapidity of lightning, he throws himself into the water. In swimming, he raises the head and breast, his fore feet strike the water as oars, whilst his long tail furrows it like a rudder. He lives entirely on insects, which he captures with much dexterity.

DESPERATE ENCOUNTER WITH A SHARK.—A gentleman, writing from Macao, on the 18th of April, says:—"I was witness to an extraordinary scene in the outward harbour on Saturday last. Several boys from the French Messageries Imperiales ship were bathing, when a shark was observed making for them. They heard the cries of their shipmates, and attempted to regain their vessel, distant half a mile. They would have been too late but for an officer belonging to the celebrated Liverpool clipper *Black Seneca*. Mr. Lamb, who arming himself with a sheath knife, sprang from the rail, and attacked the monster in his own element. The shark immediately turned upon his antagonist, when occurred a scene more easily imagined than described. Mr. Lamb dived again and again, each time coming up beneath the monster, and succeeding in inflicting several wounds. The sea was literally dyed with the blood of the shark. Several boats having been put off, he was finally dispatched with a harpoon, and hauled ashore on the beach. He proved to be a blue shark fully 15 feet long."

Miscellaneous Selections.

THE WESLEYAN METHODIST CONFERENCE.—The annual conference of ministers belonging to this extensive religious organization is about to be held at Bradford, in Yorkshire. The reports to be presented by the secretaries of the committees are this year increasingly satisfactory and encouraging. In the General Missionary Committee of Review, the report of the jubilee fund will be a cause of great rejoicing, it having exceeded the whole annual ordinary income of the society for the previous year; the growth of the affiliated conferences, the favorable commencement of the mission in Bengal, the increase of that in China, where there are now seven Wesleyan missionaries (at Canton, Fatham, Shingling, Hankow, Pekin, and Tien-Tsin), and eleven more are requested, and other tokens of success will be regarded as encouragements to increasing prayer and effort. The Home Mission movement has been widely extended; and besides five Army Chaplains, stationed at Aldershot and Shorncliffe Camps, Chatham Garrison, and Portsmouth Garrison, and ministrations among the Militia regiments while in training (2000 of whom have returned themselves as Wesleyans), sixty-three "Home Missionary Ministers" are now engaged in thickly-populated districts, including Spitalfields, Victoria Docks, Liverpool, Bradford, Sheffield, Wigan, Preston, Oldham, Manchester, Newcastle-on-Tyne, &c. The attendance of soldiers on the Wesleyan ministrations was reported last year to be 4409, and of members 236. There has been an encouraging increase in the total number of members in the various districts of the connexion, both "full and accredited" and those "on probation," as well as in the number of scholars in the day and Sunday schools throughout the kingdom. At the approaching conference there will not be fewer than 94 young ministers to be ordained to the full ministry of the Wesleyan Society, having served each a term of four years on probation and a certain course of study—viz., 60 for designation to circuits in England, six for Ireland, and 28 for the foreign missions, of which last there are several natives of Ceylon, Bangalore, Mysore, &c. Several eminent ministers have been named as likely to be elected to the presidency of the conference on the opening day, this year so ably filled by the Rev. G. Osborn, D.D.—Times.

AN ANCIENT WATER-WHEEL.—taken from the copper-mines of San Domingo, in the province of Alentejo, Portugal, and deposited in the Conservatory of Arts, at Paris, was described at a meeting of the Academy of Sciences. The origin of mining in the district is lost to pre-historic times, and the names of many place, of Phœnician origin, still testify to their antiquity. Near the mines of San Domingo it is estimated that, from the 20,000,000 tons of scorite left after ages of work, 80,000 tons of scorite have been derived. History can only determine two epochs of mining in the district—the Phœnician and the Roman. The water-wheel found belonged to the Roman works. It is about twenty feet in diameter, and is altogether formed of deal, except the axle-tree which is of green oak. It is of remarkably light construction, and no motive apparatus has been discovered in the place where it was obtained. M. Deligny, who is about to work this mine once more, and who brought the subject before the Academy, considers that the date of this wheel is 412 B. C. At a more recent meeting of the Academy, M. Payen reported the result of his analysis of some of the wood of the wheel, which corroborated the hypothesis of General Morin, that the antiseptic action of the salts of iron or copper had been the cause of the remarkable state of preservation in which it had been found.

GENERAL GRANT IN BATTLE.—A correspondent of the New York Times writes:—"I was near General Grant during that terrible Friday (June 3) in the Wilderness. To all outward appearance he was cool, calm, and unoccupied. The skin is so drawn over his forehead that wrinkles there don't show when he is perplexed, and his beard so hides his mouth that no nervousness there betrays his thought. So he sat and whittled, cutting away at his stick with leisurely, measured, meditative strokes much of the time, but turning his knife and cutting at the end nearest himself with short, clipping strokes, whenever word came of important change in the chances of the battle. Thus he fought the great contest with knife and stick, and," adds the writer, "giving the reins to his fancy, 'when the stick was gone the enemy was beaten.'"

A REPORT FROM THE SEA.—ILFRACOMBE, July 6. —A bottle was picked up at sea this morning, containing a paper on which the following was written in pencil:—"The Ocean Queen, G. Armstrong, master, has been sunk off Bermuda, February 4, 1864. All hands with the exception of two, James Dadds and John Williams, who were drowned, are in the boats. She sailed from Liverpool, December 11, 1863, and the owners are Messrs. Johnson and Lake, Liverpool.—G. Armstrong, master."

WHITE SLAVES.—A correspondent of the Chicago Tribune writes from Alexandria, La.: "As an indication of the state of society in Western Louisiana, officers have seen, in passing through, persons so white that they have been branded on the forehead with the word 'slave'; others had an X cut on the cheek to prevent them from passing off as purely white blood."

BENSON'S WATCHES AND CLOCKS.

WATCH AND CLOCK MAKER, BY SPECIAL APPOINTMENT, TO HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock-work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfect or carefully adjusted mechanism."—Times, June 11, 1862.

"A triumph of ingenuity."—Telegraph, March 31, 1862.

"A more splendid and exquisitely-finished piece of mechanism we have never seen."—Standard, June 17, 1862.

"Some of them are of great beauty; and if the English watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—Times, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—Illustrated London News, November 8, 1862.

Watches, adapted for every class, climate and country, wholesale and retail. Chronometer, Duplex, Lever, Horizontal, Vertical, Repeating, Centre Seconds, Keyless, Astronomical, Reversible and Chronograph, from 200 guineas to 3 guineas each.

THE SUFFERER'S BEST FRIEND.

HOLLOWAY'S PILLS.

**All Disorders affecting the Liver,
Stomach and Bowels.**

These Pills can be confidently recommended as the most simple and certain remedy for indigestion, flatulency, acidity, heartburn, colic, constipation, and all the many maladies resulting from disordered stomach or bowels. In all diseases it is of primary importance to set the stomach right. These Pills are purifiers, alteratives, and strengtheners of the stomach. They may be taken under any circumstances. Though powerfully tonic, and satisfactorily aperient, they are mild in their operation, and beneficial to the whole system.

Weakness and Debility, Nervous Irritability.

The wholesome effect exercised by these admirable Pills over the blood and fluids generally is like a charm in dispelling low spirits, and restoring cheerfulness. Their general aperient qualities well fit them for a domestic medicine, particularly for females of all ages and periods of life. They never betray any disagreeable irritating qualities; they quickly eject all impurities from the system, and regulate every function of the body, giving wonderful tone and energy to weak and debilitated persons, while they brace and strengthen the nervous system in a most extraordinary manner.

To Regain Health, Strength and Vigour.

Whenever persons find themselves in that state termed a "little out of health," and there are so many causes at work to shorten life, it is necessary that Holloway's Pills, the finest purifier of the blood ever known, should be at once taken, as they not only rid both solids and fluids of all morbid matters, but regulate all disordered actions, and strengthen the frame in a most extraordinary manner.

Old Coughs, Colds and Asthmatical Affections.

These Pills, assisted in their action by rubbing Holloway's Ointment very effectually twice a day upon the throat and chest, and keeping those parts covered with the preparation, will be found the most effectual remedy for asthma, coughs, colds, bronchitis, and influenza. These remedies tranquilize the hurried breathing, soothe the irritated air-tubes, and assist in dislodging the phlegm which stops up the air-passages. This treatment has proved wonderfully efficient in not only curing old settled colds, but asthma of many years standing, and even when patients who were in so bad a state as not to be able to lie down on their beds lest they be choked with phlegm.

Derangement and Distention of the Bowels, Flatulency, Diarrhoea and Dysentery.

Any symptoms of the above complaints should be immediately met by appropriate doses of these Pills, according to the printed directions: delay may be followed by disastrous consequences. These Pills are a certain remedy for all the ailments of the alimentary canal, they secure the thorough digestion of the food, and act most kindly on the stomach, liver, bowels and kidneys. As a household medicine they are unrivalled, and should always be at hand.

Very Important, of Costiveness Beware.

Rarely but little notice is taken of costiveness, yet, at certain periods, it is a sure sign that danger is near. All who are seized with apoplexy and paralysis, have previously suffered from costiveness. In the former case the blood flows to the head, a small vein is ruptured on the brain, and we know the rest. Let wives counsel their husbands, and husbands their wives, never to go to bed a second night, if the bowels have not been properly moved during the day, particularly if they feel heavy and drowsy. A few gentle doses of these fine Pills will regulate the circulation of the blood, and all dangerous symptoms.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague, Female Irregularities, Retention of Urine, Bilious Complaints, Fevers of all kinds, Scrofula, or King's Evil, Blotches on the skin, Sore Throats, Stomach and General Disorders, Gout, Secondary Syphilis, Head-ache, Indigestion, Tic Douloureux, Colic, Inflammation, Tumours, Constipation of the Bowels, Jaundice, Ulcers, Debility, Liver Complaints, Dropsy, Rheumatism, Erysipelas, Piles, whatever cause, &c., &c.

Sold at the establishment of Professor HOLLOWAY, 244, Strand, (near Temple Bar) London: also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 1d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Box.

* There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

ALL CURES MADE EASY!!

HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad Breasts and Old Wounds.

No description of wound, sore, or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance whenever this medicament is applied; sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflammation.

These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighbouring parts, when all obnoxious matter has been removed. A poultice of bread and water may sometimes be applied at bed time with advantage; and most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

Eruptions, Scald Head, Ringworm & other Skin Diseases.

After fomentation with warm water, utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach, consequently, in many cases, time is required to purify the blood, which will be effected by a judicious use of the Pills. The general health will be readily improved, although the eruption may be driven out more freely than before, and which should not be promoted; perseverance is necessary.

Sore Throats, Diphtheria, Quinsey, Mumps & all other Derangements of the Throat.

On the appearance of any of these maladies the Ointment should be well rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat; this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions.

Scrofula or King's Evil and Swelling of the Glands.

This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action of purifying the blood and strengthening the system renders them more suitable than any other remedy for all complaints of a scrofulous nature. As the blood is impure the liver, stomach and bowels, being much deranged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and Sore Nipples.	Sore Throats.
Burns.	Stiff Joints.	Skin-diseases.
Bunions.	Elephantiasis.	Scurvy.
Bite of Mosquitoes.	Fistulas.	Sore-heads.
and Sand-Flies.	Gout.	Tumors.
Coccyx.	Glandular Swellings.	Ulcers.
Chicago-foot.	Hæmorrhoids.	Wounds.
Corps (soft).	Limbago.	Yaws.
Cancers.	Piles.	
Chilblains.	Rheumatism.	

Sold at the establishment of Professor HOLLOWAY, 244, Strand, (near Temple Bar) London: and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.
